

G & Z Systems is proud to offer the Sonos multi-room digital music system. We think it's the best, but don't just take our word for it. [Click here for reviews](#). We are also available to help you design and install your system. Give us a call at **1-800-333-5373** and speak to a Sonos expert today!

Sonos is the first wireless, multi-room digital music system that lets you play all your digital music, all over your house (or your office, or your store) - and control it all from the palm of your hand. With a wireless Sonos™ Controller in hand, you'll have instant access to all your digital music, plus Internet radio, subscriptions to online audio services like Rhapsody® and Audible.com®, and even music from your favorite CD or MP3 player.

And, with Sonos™ ZonePlayers in the rooms of your choice, you can play the same song in different rooms, or different songs in different rooms. To start listening, just grab the full-color Controller and simply pick a room, pick a song and hit play.

ZonePlayer 250 Bundle (BU-250)

Get started listening to all your digital music in two rooms of your house with the new Sonos ZonePlayer 250 bundle. One ZP90 for connecting to your home theater or stereo, one ZP120 with built-in amplifier for any room, and a Sonos Controller for wireless control of music all over the house. When you're ready to expand your wireless, multi-room digital music system, simply add more ZonePlayers and Controllers as needed. Includes Sonos System Setup software.

\$999.00

Add a pair of Sonos Speakers for only \$150.00
(Special bundle price, normally \$179)

ZonePlayer 120 Bundle (BU120GZ)

Get started listening to all your digital music in two rooms of your house with two Sonos ZonePlayer 120s (ZP120s) and a Sonos Controller. The ZP120's built-in amplifier and wireless capability will bring music to virtually any room. When you're ready to expand your wireless, multi-room digital music system, simply add more ZonePlayers and Controllers as needed. Includes Sonos System Setup software.

\$1347.00

ZonePlayer 90 Bundle (BU90GZ)

Make your favorite audio devices part of a wireless, multi-room digital music system with two Sonos™ ZonePlayer 90s (ZP90s) and a Sonos™ Controller. Connect a ZP90 to your home theater, stereo, PC with powered speakers, tabletop radio, and more. Then, control the music on all those devices with the wireless Controller. To hear more music in more rooms, just add on. Includes Sonos System Setup software.

\$1047.00

Sonos Controller 200 (Cr200)

Now you can get in touch with your music like never before with the new touch screen Sonos Controller 200 (CR200). With a full-color VGA display and ultra-responsive touch screen, you can wirelessly control the entire Sonos system at the touch of a finger. And it's 100% dedicated to multi-room music - simply pick it up and it's ready to play music. From the palm of your hand you'll have instant access to your entire digital music collection, including album art and detailed track information.

- **Instant on** - Start playing music in an instant by either picking up the Controller or touching the screen.
- **Dedicated buttons** - Mute, Volume and Zones buttons provide shortcuts to the most often used functions.
- **Type to search** - Instantly find an artist, song, radio station, or radio show by typing on the on-screen keyboard. Suggestions provided as you type.
- **Music discovery** - While playing Last.fm or Rhapsody, touch the "i" command, to access rich music information, like artist bios, album reviews, concert listings, and lists of similar artists.
- **Superior wireless with SonosNet** - The CR200 works on SonosNet™ (Sonos' proprietary mesh network) ensuring the best wireless performance of any networked music product on the market with no interference.
- **One-handed operation** - The CR200's smaller size makes it easy to hold and operate with just one hand.
- **Long battery life and replaceable battery** - Get up to five days of usage between charges and replace the battery with ease.

Sonos ZonePlayer 90 (Zp90)

This wireless digital music player seamlessly integrates your home theater, stereo, powered speakers, or any other amplified audio device into your multi-room digital music system. Comes with digital and analog out for connecting to external amplifiers. Includes Sonos System Setup software.

\$349.00

Sonos ZonePlayer 120 (Zp120)

This wireless digital music player has a built-in 55W amplifier to distribute, play and amplify your music all throughout your home - regardless of where your music is stored. Includes Sonos System Setup software.

\$499.00

22 Saw Mill River Rd. Hawthorne NY 10532

Sonos ZoneBridge (Br100)

The easiest way to set up or extend a wireless Sonos system. Although the ZoneBridge doesn't play music itself, this little wireless wonder can accomplish a lot.

Connect the ZoneBridge to your router to instantly activate SonosNet. Now all ZonePlayers and Controllers will work wirelessly. Extend your wireless music to a remote location by placing a ZoneBridge between that location and another ZonePlayer.

\$99.00

Includes two Ethernet jacks to easily connect a set-top box, PVR, PC, game console or NAS drive to the internet
